BÜSCHE

BÜSCHE

150 years Anniversary

It is with pride and gratitude that I look back on the 150-year history of BÜSCHE. Since 1872, BÜSCHE has been developing, manufacturing and selling products exclusively with the label „Made in Germany“.

For generations, the name BÜSCHE stands for tradition combined with the strong desire to actively shape the future. The focus is on sustainability, social responsibility and the continuous development of the BÜSCHE brand.

My heartfelt thanks go to all those who have accompanied us on this long journey and whose thoughts and actions have made BÜSCHE GmbH & Co. KG into a globally successful family business.

Fernando Sanchez

PURE DESIGN
PROFILES GUARANTEED
MADE IN GERMANY

With the TECDOR brand, BÜSCHE has created a collection of decorative profiles with a high standard of aesthetics and functionality. Less is more, so TECDOR products present themselves in a high-quality and expressive way.

Individual finishes and one of the world's largest collections of decorative profiles make the TECDOR collection unique in design-oriented private and commercial applications.

QUALITY IN ALL AREAS MADE IN GERMANY

The term quality describes the overall impression of a product in terms of technical precision, design, haptics and sustainability. As one of the few German suppliers of curtain sets, BÜSCHE manufactures its products exclusively in Neuenrade with the predicate „Made in Germany".

Process-optimized production methods and the craftsmanship of dedicated employees create the basis for excellent functionality and durability. In close cooperation with international product designers, new shapes and unique products are created: unmistakable, unique and with the highest precision.

THE BÜSCHE BRAND STRATEGY

The umbrella brand BÜSCHE and the associated brands VION, INSIDE and TECDOR provide wholesalers all over the world with a unique product portfolio of curtain sets and accessories for window decoration.

With a clear commitment to national and international wholesalers, BÜSCHE underlines its reliability and sets clear accents in the cooperation with its partners. BÜSCHE offers the retail trade a unique variety of products combined with a high level of security, exclusivity, reliability and support.

BÜSCHE
FOCUSED ON RESPONSIBILITY

Craftsmanship, high-quality materials from sustainable German production, CO2-optimized manufacturing processes, the increasing use of lead-free brass and packaging materials reduced to the essentials are just a few examples of the ecological responsibility in the BÜSCHE philosophy.

All products are manufactured by hand according to European environmental guidelines and are anodized or electroplated depending on the finish.

Only solid turned and milled products are used. The result are finishes with an impressive appearance and individual color tones.

High qualified employees and the use of modern CNC-controlled production machines and robotic systems guarantee a quality that is appreciated by customers all over the world. Visit us in Neuenrade and convince yourself of the diversity of our production and the unique quality „Made in Germany".

SCHMIDDEM PRODUCT DESIGN, LIVING PASSION.

Wishes, dreams, visions: Schmiddem Design delivers the designs. For Jochen Schmiddem, it's the little things that make a product into an experience. Each one is unique in form and concept, just as each company is unique. The result is a distinctive product that is precisely tailored to the wishes and targets of the client and its markets.

In the process, limits are crossed deliberately in order to create the perfect product by combining functionality, durability and emotionality.

This requires innovative companies that are interested in more than just the product; for whom innovation and sustainability are not just bold marketing words, but an integral part of the corporate culture, from the first draft to the finished product.

In BÜSCHE, Jochen Schmiddem has found the perfect partner. Seven new products - PUR, COS, LEP, BOW, NEXUS, COLAR and CALA - have been created, and some of them have already won several design awards.

Team spirit, trust, passion and innovative action characterize the BÜSCHE company: unmistakable, unique and manufactured with the highest precision.

BÜSCHE
150 YEARS MADE IN GERMANY

The BÜSCHE company history began in 1872 with the foundation of a company for the production of wood screws by Heinrich Büsche. In the 50's and 60's, under the management of Fritz Büsche, the company began to produce hooks for wardrobes, rope fittings, eyelets, curtain rings, tie-backs, carpet rods and the first curtain sets.

TECHNOLOGICAL PROGRESS AND EXPANSION

The expansion of the product portfolio and the increasing globalization of the BÜSCHE brand led to continuous technological development in all areas of the company over the following decades. Existing systems were replaced by modern CNC machines, environmentally friendly cleaning systems and computer-controlled grinding and polishing robots.

NEW BUILDING AND STRENGTHENING THE BÜSCHE BRAND

In 2014, BÜSCHE invested in the construction of a 2,300 m² logistics center, which is now used for order picking, storage of finished products, order processing and production. With the publication of the 2015 product catalog, the brands BÜSCHE INSIDE, BÜSCHE TECDOR and BÜSCHE VION were presented under the main brand BÜSCHE.

ACTIVE MANAGEMENT OF THE FUTURE

This year BÜSCHE is celebrating its 150th anniversary. Time to look back with gratitude, but also an important occasion to look into the future.

In addition to strengthening the BÜSCHE brand, combined with the continuous development of products, finishes, optimization of gliding properties and services, the establishment of sustainable production is at the top of the agenda.

Already today, more and more materials from carbon-optimized production and lead-free brass are being processed. Investment in a new CNC turning machine suitable for processing this type of brass, a new exhaust system for the polishing department to protect employees and the environment, and the installation of a degreasing system based on the latest environmental regulations are all planned for this anniversary year.

With the purchase of an adjoining commercial property of 3,000 m² for production and assembly, BÜSCHE GmbH & Co. KG has set another example for a sustainable, socially responsible and successful future.

Shareholders and General Managers from 1872 UNTIL TODAY
